

The Ride

A motorcycle pack riding app built for real riders. Large buttons for gloved hands, dark mode for sunlight readability, and features that matter on the road.

Features

- **Interactive Map** — GPS tracking with dark theme (Leaflet + OpenStreetMap)
- **Add Stop** — Find gas, food, mechanics, restrooms nearby
- **Emergency Mode** — One-tap SOS, share location, notify your pack
- **Garage** — Bike profiles with specs, service records, and mileage-based reminders
- **Ride History** — Track miles, routes, and bike usage
- **Pack Management** — Create packs, invite riders, set gas stop intervals
- **Road Captain Mode** — See rider levels, miles, and emergency contacts
- **Pack Rating System** — Rate riders on safety, formation, comms, and more
- **Social Feed** — Post your bike, pack, and ride photos with likes and comments
- **Event Calendar** — Motorcycle rallies, charity rides, and local bike nights
- **Profile** — Picture upload and riding stats
- **Leaderboards** — Local, regional, and national mileage rankings

Run It

1. Download all files to the same folder
2. Open `index.html` in any browser
3. That's it. No server required.

Tech Stack

- Vanilla HTML/CSS/JS (no framework)
- Leaflet.js for maps (free, no API key)
- OpenStreetMap tiles with dark CSS filter
- Overpass API for place search
